

Geislingen, 27. 06. 06.

Dear Mr. Rajamaa!

Your letter arrived on the 12th of June. According to the last news, Mr. Lipp did not perish at sea, as his fellow travellers at the boat are in Estonia - Mr. Leppasaar, is at his farm, as well as a lady at Türi. What happened with Mr. Lipp, there are not existing any news.

We here in worries about our countrymen living in Sweden especially about the treat with Moscow concerning merchandise from Sweden there have come letters not showing any excitement and from that like there is rather peaceful.

Our life is rather aimless and meaningless although we need not worry our daily bread, food is rather satisfactory.

Regarding our future life far overseas, we try to fill up our time by attaining technical knowledges.

So I myself have finished the driver's school as motor-mechanic and have also finished the electrotechnical courses for mastership. Now I am working as motorcar mechanic at a motorcar overhauling workshop, to have the necessary practice. May be that

all will help to soften our situation
also in the most difficult and may be
definite position.

On the festival of Victory-day, there
was an act and in the evening a
bonfire arranged by the scouts.

The wheater here is very rainy, during
a months it is raining here every day.

Nikity-Naroma daughter has been
imprisoned in Bararia for having
too close connections with the great
native country.

With the best regards to your
family from my family

yours H. P. Rivers.
