Armas härra Rajamaa,

Siinselt Eesti Teaduslikult Ühingult kuulsime, et Teie võiksite vast vastuse anda küsimustele, milliseid meile on esitatud Gale Research Company poolt erialalise sõnaraamtu väljaandmise asjas, nagu ilmneb juurelisatud nende kirja koopiast.

Palume meile lahkest teatada, kas on võimalik neile selles küsimuses kaasa aidata, või kas võime neile anda Teie aadressi, nii et nad Teiega saaksid otseühendusse astuda.

Tervitades

Konsul

Dear Sir or Madam:

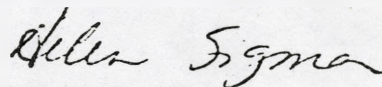

We are compiling a dictionary of foreign acronyms, initialisms and abbreviations. The dictionary will cover a wide range of subjects including Aerospace, Associations, Biochemistry, Business and Trade, Domestic and International Affairs, Education, Electronics, Government, Labor, Medicine, Military, Politics, Science, Society, Sports, Transportation and other fields.

Specifically, each entry would include the acronym, abbreviation or initialism, the full term in its native language, and when possible, the English translation.

We would greatly appreciate receiving any lists or publications of acronyms, initialisms and abbreviations from your native language, for inclusion in our book. We would also appreciate a list of similar publications published abroad if this information is available.

Thank you for your assistance.

Sincerely,

Helen Sigman
